

Source: US Census Bureau, ACS 2010 5 Year EEO data, Job Code 4610 - Personal Care Aides (SOC 39-9021)

All US counties were examined. The estimates for workers in this job category were compared to the 80+ population from the 2010 census and a ratio was calculated:

$$\text{ClientRatio} = \frac{\text{80PlusPop}}{\text{Workers}}$$

Only those counties with 80+ populations of at least 10,000 were ranked according the ClientRatio, from the worst at 136 (aged 80+ people) for every worker down to a ratio of 20 to 1:
